LAYER THE DETAILS

Bring a pattern from the place setting up into the shade, or add woven texture beside crisp porcelain.

A considered finishing touch

Ask our team how to work shades into your event design and confirm the compatible lighting components required for your chosen look.

Lily of the Valley.

A sculptural white setting for the quietest kind of celebration.

THREE DISTINCT DESIGNS

Beauty in every detail.

A different relief on every plate: a floral charger, an angular beaded salad plate and a petite lily sprig on the bread plate.

Layer all three for a sculptural white setting, then add clear crystal and linen with a quiet green detail.

FOR THE LITTLE MOMENTS

Rocking horses, teddy bears and warm taupe tones set a sweet but sophisticated scene for baby showers, baptisms and first birthdays.

A setting made for tiny hands, big love and beautiful photographs.

Build a full layered table with the Bébé charger, salad and bread plates, then bring in soft florals, ribbon details and a favourite little treat at each setting.
